

# Luxury Lounger

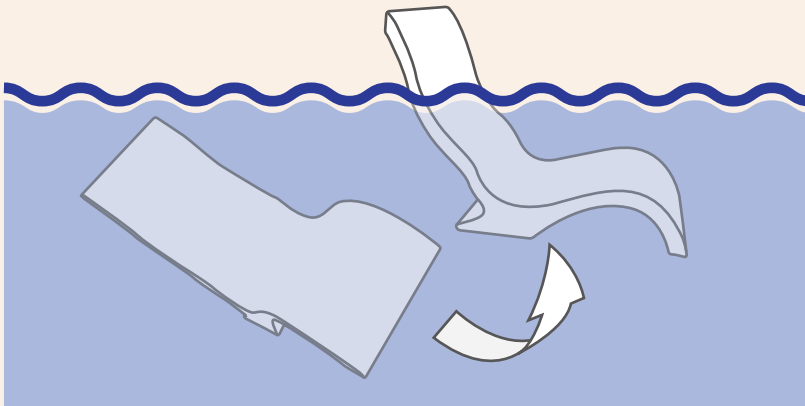

To install the chair:

1. Fill the chair with water in your pool, make sure to get all bubbles out.

## **NO PLUGS NECESSARY**

These chairs **DO NOT USE PLUGS**, they are not necessary. Most chairs on the market now do not use plugs, only a few older models do.

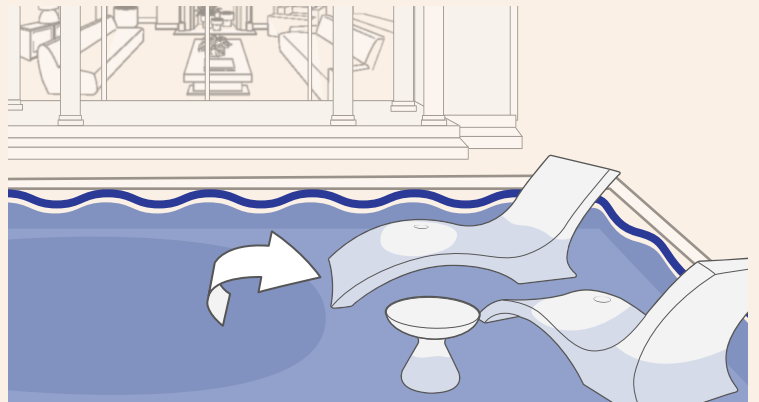

2. Next, rotate the chair upright keeping the fill hole(s) under water.

WATCH THE VIDEO 

3. Next, slide the chair up onto the pool ledge, keeping the fill holes under water.

### **NOTE:**

Once the chair is up on the pool ledge, it will hold the water perfectly without plugs simply due to the vacuum in the chair.

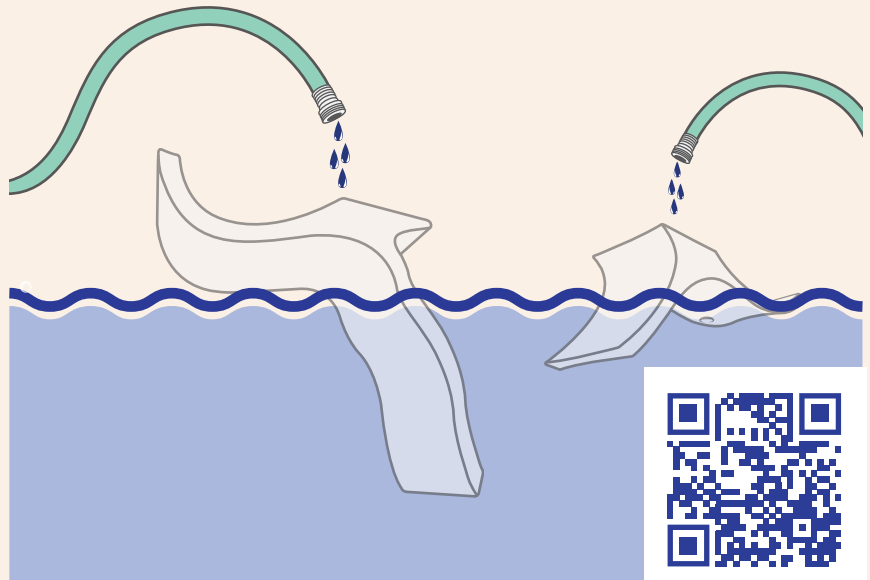

## Helpful tip - Pre-fill chairs:

1.

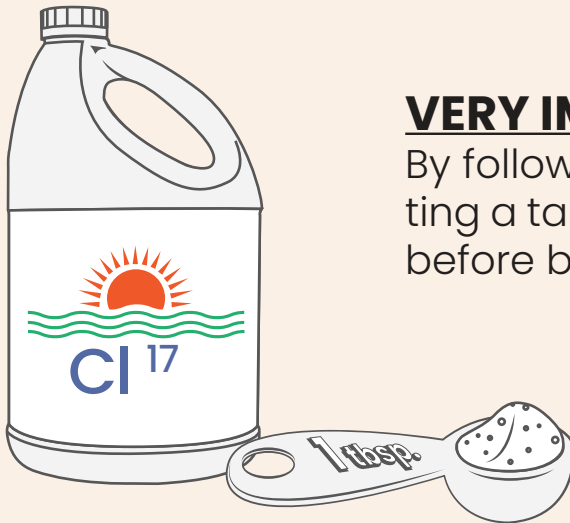

Make the job easier by using a garden hose to pre-fill your chair.

Put the chair in the water upside down (fill hole facing up).

Stick the water hose in the hole and turn on the water flow.

## **VERY IMPORTANT TO NOTE:**

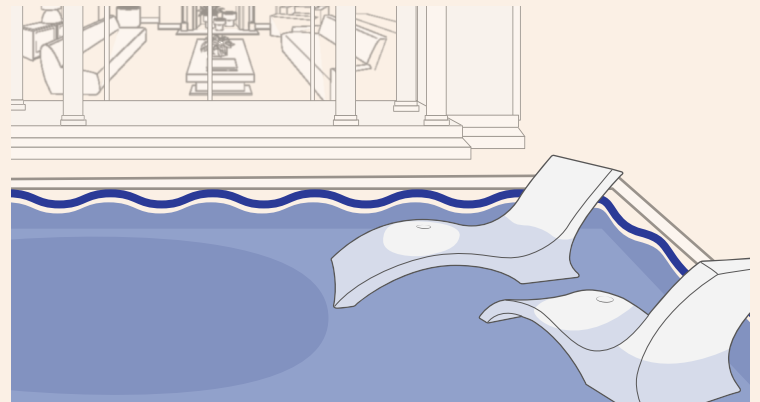

By following this method, we recommend putting a tablespoon of pool shock into the fill hole before beginning the water flow.

2.

Next, rotate the chair upright keeping the fill hole(s) under water.

3.

Next, slide the chair up onto the pool ledge, keeping the fill holes under water.

## **NOTE:**

Once the chair is up on the pool ledge, it will hold the water perfectly without plugs simply due to the vacuum in the chair.
